Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

FOR SALE

CHECK LIST OF THE HEMIPTERA

(excepting the Aphidae, Aleurodidae and Coccidae) of America, north of Mexico, by E. P. VAN DUZEE, Instructor in Entomology, University of California.

2945 species are enumerated, also the more important synonyms, and the year when the description was published is given in each instance. The species are also numbered after the plan of the well known Henshaw check list of Coleoptera.

Price, $1.50
